WINDOWS & DOORS

The Quantum Powered Servery Window allows you to maximize entertaining spaces and are the perfect addition to a breakfast bar or outdoor servery. The powered servery can open/close and lock automatically at a push of a button.

- High-performance heavy-duty powered struts and hinges.

- Please note: The Powered Servery window has no sill and is not weatherproof and therefore not warranted for water ingress. We recommend the product to be installed under the main roof in a covered location, i.e. alfresco areas.

- Hinged at the top they can be opened to a 90-degree angle.

- Self securing latch that locks the window.

- The plug and play system uses quick connect plugs and a 24V DC power pack plugging into a general power outlet (GPO), the system does not require a licensed electrician to connect all the components.

- Wireless control with handheld remote and wall mounted switches available.

- The locking system latches to the frame, avoiding the need to cut holes in your bench material.

- Available in single and double glazing.

- Compatible with an internal retractable flyscreen.

- Single lite configuration only.

Heavy-duty stainless-steel components
The top and bottom mounts are fabricated from 316 Stainless steel to offer superior corrosion resistance in a variety of environments.
