

# Crestlite<sup>®</sup> Viscount Sliding Doors Installation

107

#### **Viscount Sliding Doors - Installation**

#### Building In Detail | Blockwork with Sump Sill

#### **INSTALLING FRAME CORRECTLY**

Measure the frame opening to ensure that there • is sufficient room for the product and additional packing.

#### **Blockwork Opening:**

Height = Frame Height + 50mm Width = Frame Size + 20mm

- Header beam should be at least 12mm clear of window frame.
- Fit subframe to opening and seal fixings.
- Fit door to subframe (screw or pop-rivet).
- Do not permit weight of eaves or arch bars to bear on any window or door frame. (Windows and doors are not load bearing.)
- To ensure the satisfactory long term performance of doors, sill must be fully supported.
- Ensure outside finish does not block sill drainage holes.

#### Please note that drawings displayed are not to scale
