### Features & Benefits

Xtreme® Quantum Casement Window

\*Xtreme® Windows & Doors have been tested to AS1530.8.1, and comply to Section 8 Construction Service Bushfire Attack Level 40 (BAL-40), Radiant Heat Level 40kW/m², AS3959 (2009). For full details of Standards requirements for individual products please refer to Trend Windows & Doors Technical Department.

- 1 Bushfire Features
  - Xtreme® Bushfire Windows & Doors have been tested to withstand temperatures up to 40kWm² without failure from either the glazing or from the window system itself, to help prevent internal ignition of houses and loss of precious possessions.
- 2 Xtreme® Bushfire Windows & Doors System Features include patented Van Door® and Pyro-Protec™ Sealing Systems acting to protect the home against wind, water, noise dust and bushfire penetration. Trend® has combined the technologically advanced Xtreme XP® Windows system with Pyro-Protec seals, glazing systems and 5mm standard toughened glass to produce Xtreme® Windows and Doors.
- 3 Energy Efficiency Options

Trend® Thermashield® in various glazing styles are available to help reduce energy consumption. Trend® Thermashield® means greater control, bigger savings and most importantly one less thing to worry about. Energy efficient options to u-value and SHGC are available for Xtreme® Casement window.

- 4 Acoustic options
  - SoundMizer® acoustic solutions in various STC ratings, are available for Xtreme® Bushfire Casement window. SoundMizer® acoustic solutions can reduce aircraft, highway traffic, railway and other annoying noise problems. For information or technical details contact Trend®.
- 3 Key Lock Scissor Winder Xtreme® Bushfire Windows & Doors winder mechanism is designed specifically for high performance, security and reliability. The winder can be used in even the harshest

Satin Chrome hardware is supplied as standard. 100mm restrictor openers are available for safety options. Key lock is standard for added security.

environment without worry of corrosion.

Optional coloured hardware is anodic natural matt, pearl white, stone beige or black gloss.

4 Side Sash Latch

Handle is operated by 180° rotation from open to closed position and is concealed within the window frame. Operation pulls in sash for a tighter seal against the weather and improved security.

5 Glazing

Xtreme® Premium sash frames have 5mm toughened glass as standard and is available in toughened 16mm double glazing for energy efficiency applications.

6 Frames

Xtreme® Bushfire Windows & Doors framing offers a commercial look for apartments, high end residential, or where ever a commercial frame is required. This robust 102mm frame allows for large fixed lite applications for greater viewing area.

Xtreme® Bushfire Windows & Doors has a truly solid look, reminiscent of timber, and is extremely popular in both traditional and contemporary house designs.

7 Finishes

Powdercoated finishes are available in a range of colours and finishes including Warranty Powders and Anodised options to suit most applications

8 Window Placement

Care should be taken with locating opening Casement Windows in pedestrian traffic areas.

9 Protective Wrapping

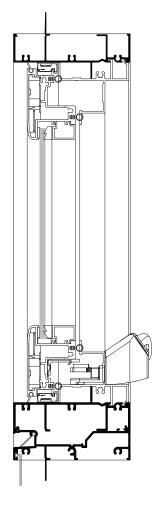

Protective wrapping for delivery to site is a standard for all Xtreme® Bushfire Windows & Doors products.

9 Options

Easy to fit tension loaded flyscreens can be fitted and removed from the inside. Wide range of powdercoat finishes available including timber powdercoat finishes.

#### **Bushfire Protection**

Xtreme® bushfire protection that has been tested by CSIRO to BAL–40, which is fully compliant to AS1530.8.1 within AS3959–2009 is available. For full details of Standards requirements for individual products please refer to Trend Windows & Doors Technical Department.
